

**PIENAAR ENERGY (PTY) LTD**

# **Morocco solar Power Storage**

## Overview

---

Morocco aims to generate 52% of its electricity from renewables by 2030. From lithium-ion batteries to molten salt systems, Morocco's storage. Riyadh-based energy company Acwa Power will develop Morocco's Noor Midelt II and Noor Midelt III solar-plus-storage projects. Together, they have a combined solar capacity of 800 MW alongside 1,200 MWh of battery energy storage. Saudi-listed Acwa Power has been awarded the Noor Midelt II and Noor. Solar power in Morocco is enabled by the country having very high rates of solar insolation — about 3,000 hours per year of sunshine, which rises to 3,600 hours in the desert. Did you. The National Office of Electricity and Water (ONEE) is targeting an installed electrical capacity of 10. Set against the arid backdrop of the Sahara's gateway, this solar giant does more than generate energy, but is building a model for clean.

## Solar power in Morocco

An International Energy Agency (IEA) report from July 2023 highlights that in 2020, imported fossil fuels--coal, oil, and

gas--accounted for over 80% of Morocco's electricity generation. It outlines that Morocco has developed a plan to transform its energy sector by 2030, aiming to increase the renewable energy share to 52%, with specific targets of 20% for solar power, 20% for wind energy, and 12% for hydroelectric power. This approach seeks to enhance energy security and reduce dependence on imp...
