

**PIENAAR ENERGY (PTY) LTD**

# Myanmar Ra Solar Panels

## Overview

---

Even though hydropower is responsible for most electricity production in Myanmar, the country has rich technical solar power potential that is the highest in the Greater Mekong Subregion; however, in terms of installed capacity Myanmar lags largely behind Thailand and. Even though hydropower is responsible for most electricity production in Myanmar, the country has rich technical solar power potential that is the highest in the Greater Mekong Subregion; however, in terms of installed capacity Myanmar lags largely behind Thailand and. Radiant Rays Co. is a leading energy engineering solutions provider, specializing in optimizing energy usage and advancing sustainability. Our comprehensive expertise encompasses cutting-edge technologies such as energy-efficient lighting, solar panels, and renewable energy systems. The Myanmar Investment Commission has approved the solar panel manufacturing project in Mandalay. Solar energy is just beginning to gain some traction in Myanmar, a country that has been gradually opening up its economy and society to the world since 2011. 8 TWh/year, with an average of over 5 sun hours per day. According to the junta media, the admiral aims to require developers to install panels on. The Pact-implemented Smart Power Myanmar project works to accelerate electrification through catalyzing new sources of investment and knowledge to end energy poverty and promote economic opportunity in Myanmar. Smart Power Myanmar has been a leader in wide-scale use of on-grid and off-grid.

- 
**Efficient Higher Revenue**
  - Max. Efficiency 97.5%
  - Max. PV Input Voltage 600V
  - 150% Peak Output Power
  - 2 MPPT Trackers, 150% DC Input Overvoltage
  - Max. PV Input Current 15A, Compatible with High Power Modules
- 
**Intelligent Simple O&M**
  - IP66 Protection Degree: support outdoor installation
  - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
  - DC & AC Type II SPDs prevent lightning damage
  - Battery Reverse Connection Protection
- 
**Flexible Abundant Configuration**
  - Plug & Play, EPS Switching Under 10ms
  - Compatible with Lead-acid and Lithium Batteries
  - Max. 6 Units Inverters Parallel
  - AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

## Smart Power Myanmar's solar energy infrastructure builds resilience
