

PIENAAR ENERGY (PTY) LTD

Namibia australia solar power

Overview

The solar photovoltaic (PV) plant will have a planned capacity of 100 MW with a total investment of N\$1. It is set to become the largest solar PV project developed by NamPower so far. This initiative is unfolding under the Southern African Power Pool (SAPP) program, which aims to enhance cross-border electricity trade and energy. NamPower Breaks Ground on Namibia's Largest Solar PV Power Station. 6 billion funding and June 2026 commissioning target. Author: Tom Brewster Photography. License: Creative Commons, CC BY-SA 2. NamPower yesterday signed a NAD1. 26 January was the International Day of Clean Energy, celebrated worldwide to raise awareness and mobilizing action for a just and inclusive transition to clean energy for the benefit.
