

PIENAAR ENERGY (PTY) LTD

New soft photovoltaic bracket

Overview

A DAS Solar flexible bracket counteracts high structural loads by applying pre-tension to a steel cable, allowing it to span between 20m and 40m by controlling cable strength and deformation. Future Energy Steel offers a wide range of high-quality photovoltaic brackets specifically engineered for modern solar energy systems. Designed for durability and precision, our brackets ensure stability and efficiency in residential, commercial, and industrial applications. Each product complies. Check each product page for other buying options. Need help?

. In July 2025, the Ministry of Industry and Information Technology (MIIT) convened a manufacturing symposium, emphasizing the need to curb "irrational competition" through stricter capacity thresholds and phasing out outdated production lines. The innovative separate bracket system provides a great option for user who wants to install rigid solar panels on a curved surface.

New soft photovoltaic bracket

Photovoltaic brackets: build a solid bridge for clean energy

Our brackets are engineered with advanced engineering and high-quality materials, rigorously tested and certified to ensure their stability, durability, and safety.
