

PIENAAR ENERGY (PTY) LTD

Niger Solar Power Storage Plant

Overview

Société Nigérienne d'Electricité (Nigelec) has contracted a consortium of India's Sterling and Wilson, France's Vergnet and SNS Niger to construct a solar PV battery storage and diesel genset-based hybrid power plant in the central city of Agadez. This project, funded by the World Bank through the International Development Association (IDA), is intended to generate electricity from renewable sources; and (ii) the population's improved access to modern energy services. The expected outcomes are: (i) solar-based electricity generation capacity is increased; (ii) household access to electricity via the grid and renewable energy generation. Niger is taking significant strides to address its energy challenges, as new solar projects begin to transform the landscapes of Niamey and Zinder. Niger Electricity Co. has asked consultants to submit expressions of interest for feasibility, environmental, and social impact studies for a 60 MW solar-plus-storage project in western Niger. 0 MVA battery energy storage system (BESS) + 6. 18 x 3 MVA) diesel generator and 20 kV substation, and evacuation line up to the Nigelec Substation in Agadez.

Product Model
 HJ-ESS-215A(100KW/215KWh)
 HJ-ESS-115A(50KW 115KWh)

Dimensions
 1600*1280*2200mm
 1600*1200*2000mm

Rated Battery Capacity
 215KWH/115KWH

Battery Cooling Method
 Air Cooled/Liquid Cooled

Niger seeking consultants for 60 MW solar-plus-storage

project

State-owned Niger Electricity Co. is seeking consultants to carry out feasibility, environmental and social impact studies for the construction of a 60 MW solar plant with storage.
