

PIENAAR ENERGY (PTY) LTD

Nigerian containerized solar energy storage company

Overview

The new container generation from Karmod is now responsible for solar energy storage in Nigeria. In the solar energy storage plant of the country's central power company in Lagos, solar collectors were installed on the new generation of the Karmod container and began to store energy. The energy. As Nigeria seeks to address its energy deficit and transition toward renewable power, the Abuja container energy storage project has emerged as a game-changer. Their expertise in energy storage provides innovative solutions for stabilizing electricity grids through. In early 2025, E-abel's sub-brand Isource, which focuses on emerging markets across Africa, the Middle East, and Southeast Asia, successfully secured a major EPC contract for a new water plant project in Nigeria. After three months of intensive discussions, negotiations, and technical solution. They are building parallel energy systems—often designed to operate independently of public supply, yet intelligently integrated where needed. What distinguishes this phase is not scale alone, but systems.
