

PIENAAR ENERGY (PTY) LTD

Off-grid OEM Energy Storage Battery Cabinets for Data Centers

Overview

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC-compliant energy storage systems designed for renewable integration. The Vertiv™ EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they provide 10–15 years of reliable performance in a smaller footprint than VRLA batteries. FlexGen provides turnkey and hardware-agnostic solutions for designing, integrating, and operating energy. PVB commercial and industrial battery energy storage system cabinet adopts a modular design concept, combining the functions of an energy storage battery, battery management system (BMS), fire protection, energy management, and more. This design enables flexible adaptation to data centers. Strong. Our 480 VDC Battery Cabinet is ready to ship.

Off-grid OEM Energy Storage Battery Cabinets for Data Centers

Commercial & Industrial Battery Energy Storage for Data Center

To meet diverse data center power requirements under different grid conditions, we provide flexible and reliable energy storage solutions. Our portfolio covers dynamic capacity expansion in on-grid ...
