

PIENAAR ENERGY (PTY) LTD

Off-grid solar-powered containerized mobile type for wastewater treatment plants

Overview

Aquacycl provides the only modular wastewater treatment system for decentralized wastewater treatment that produces direct electricity without methane, eliminates sludge, and enables water reuse with minimal operating expense. If playback doesn't begin shortly, try restarting your device. Videos you watch may be added to the TV's watch history and. Veolia offers reliable, secure, 24/7 services to suit all requirements. Pre-packaged on a trailer, skid, or container for maximum mobility and responsiveness, a portable water treatment plant will instantly enhance your facility. Instead, a small, self-contained plant is installed on-site or close to the point of use. They are the perfect solution, with a proven record of success for treating wastewater that is created "off the beaten path". These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client. Novel solutions are developing for wastewater treatment in areas where conventional wastewater infrastructure is impractical or unreasonably expensive.
