Outdoor solar power generation in Los Angeles

Overview

This page outlines solar PV incentives, financing mechanisms, permitting process, and interconnection information for the City of Los Angeles and the utility that serves its territory, Los Angeles Department of Water and Power (LADWP). SRP is designed to expand access to solar participation for qualified LADWP residential customers who otherwise may not be able to participate in solar because of the high cost of installing panels. The program launched in early 2017 and was revised to expand the program's scope and eligibility in. While rooftop solar arrays can offset in- building electricity needs, they may also stress electric grid operations. in recent years, according to a data analysis by LAist and Crosstown LA. 0 MWh during the 3-month period between September 2024 to December 2024.

Outdoor solar power generation in Los Angeles

To lower electric bills, consumers quietly install DIY solar

Some plug-in solar systems come with batteries to store power for use during peak demand when electricity rates spike and when storms or heat waves knock out the grid.
