

**PIENAAR ENERGY (PTY) LTD**

# **Panama s solar power generation and energy storage**

**FLEXIBLE SETTING OF  
MULTIPLE WORKING MODES**

## Overview

---

Minigrids in these regions integrate solar, thermal generation, and battery storage to provide sustainable energy. The Electric Generation Company (EGESA) has received approval from its Board of Directors for the construction of a new 5 Megawatt (MW) solar plant, a key step in the progress towards a more sustainable energy model for Panama. The new solar plant aims to significantly increase the renewable energy. Panama has significantly expanded its solar energy capacity, adding an impressive 143.4 MW in the first eight months of 2024. In this blog post, we will. Citation: IRENA (2024), The energy sector of Panama: Climate change adaptation challenges, International Renewable Energy Agency, Abu Dhabi.
