

**PIENAAR ENERGY (PTY) LTD**

# **Panama solar power plant system**

## Overview

---

Panama formally inaugurated the Santiago Solar Park, a \$70 million investment by the Naiad Renovables Group with a capacity to produce 86,333 megawatts peak (MWP), providing a new boost to renewable energy in this country, where the photovoltaic and wind energy segments accounted.

Panama formally inaugurated the Santiago Solar Park, a \$70 million investment by the Naiad Renovables Group with a capacity to produce 86,333 megawatts peak (MWP), providing a new boost to renewable energy in this country, where the photovoltaic and wind energy segments accounted. The Electric Generation Company (EGESA) has received approval from its Board of Directors for the construction of a new 5 Megawatt (MW) solar plant, a key step in the progress towards a more sustainable energy model for Panama. The new solar plant aims to significantly increase the renewable energy.

Panama built 143.39 MW of new PV capacity in 2024, according to the National Public Services Authority (ASEP). EI. With Panama's abundant sunshine and commitment to sustainable energy, installing solar panels has become an increasingly popular choice among the nation's real estate owners. 8 MW clean energy power generation project will be built in Panama, using almost 22 thousand photovoltaic modules with a capacity of 2,500 kW. CentralAmericaData's Commercial section provides an up-to-date list of public and private construction projects that have submitted Environmental Impact.
