

PIENAAR ENERGY (PTY) LTD

Paris New Energy solar Panels

Overview

The 200-megawatt (MW) project in the Kenosha County town of Paris features nearly 500,000 solar panels capable of providing enough energy to power about 60,000 homes. The project was built primarily by Wisconsin union workers. The site began producing power last December, but the battery park went online this week. Installed on the river Seine close to the Athletes' Village, this floating solar farm will be fully removable. EDF In a groundbreaking move for sustainable. Neoen, France's leading independent producer of exclusively renewable energy, has provided Bouygues subsidiary Equans Solar & Storage with notices to proceed for three solar farms and two 225 KV substations which will connect to the RTE network, thereby signaling the start of construction.
