

**PIENAAR ENERGY (PTY) LTD**

# **Photovoltaic bracket and accessories production equipment**

## Overview

---

BEBON is a high-tech enterprise specializing in the R&D, design, production and sales of distributed photovoltaic brackets, fixed photovoltaic brackets, flexible brackets and tracking brackets. The company can provide customers with services from R&D, design to system integration of photovoltaic support. Dalian Eastfound Solar Equipment Co. is. The Photovoltaic (PV) Bracket Production Line is a fully automated solution designed for the mass production of solar mounting structures (solar struts/channels). BEBON sells photovoltaic mounting products worldwide, providing customers with solutions, customized. MASSCA's solar mounting strut channel manufacturing system is a high-performance production solution engineered to fabricate strut channels for solar support structures in multiple specifications, including 41×21 mm, 41×41 mm, 41×62 mm, and 41×82 mm. With excellent design and manufacturing capabilities, we serve projects worldwide and strive for sustainable development through quality and integrity.

## Photovoltaic bracket and accessories production equipment

### Automatic Production Equipment for Photovoltaic Brackets: The Game

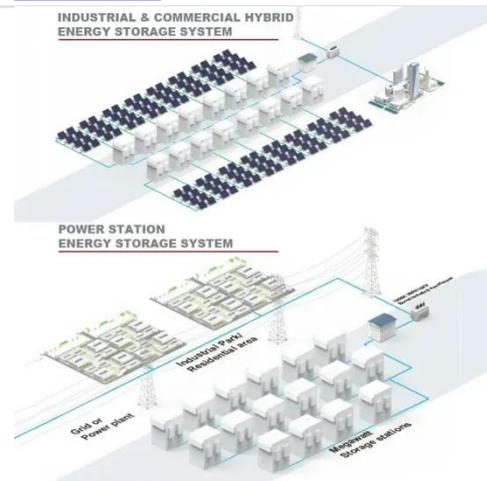

That's not sci-fi - it's today's reality in cutting-edge solar manufacturing. The global photovoltaic bracket market is projected to reach \$4.8 billion by 2027 (Grand View Research), and automatic production ...
