

**PIENAAR ENERGY (PTY) LTD**

# **Photovoltaic bracket export certificate to Australia**

## Overview

---

Export License: Photovoltaic modules themselves generally do not require an export license, but if they involve energy storage components such as lithium-ion batteries, it is necessary to check the "Export License Management Goods Catalog (2025)". You'll need certain export documents to meet Australian and destination market requirements. The documents you need will. Let's face it - customs paperwork isn't exactly a thrill ride, but getting your photovoltaic bracket export declaration right could mean the difference between smooth sailing and watching your solar components gather dust at some port warehouse. With global solar installations projected to reach. An Export Declaration is a statement made to us by the exporter, owner of the goods, or their agent. The statement provides us with information about the goods and the export transaction.
