

**PIENAAR ENERGY (PTY) LTD**

# **Photovoltaic bracket lower pressure plate**

## Overview

---

They cover a complete series including mid clamps, end clamps, and grounding clamps, designed with standardized specifications to precisely match various PV mounting systems, ensuring stable installation and safe operation of the modules. Photovoltaic Pressure Plate is a component used to fix photovoltaic solar panels. It is made of high-strength material and is galvanized to prevent corrosion. This photovoltaic bracket accessory can withstand a large weight and ensure that the photovoltaic panel is stable even in adverse weather. The photovoltaic pressure plate is the core connector for fixing photovoltaic panels in the solar bracket system. It can be used in extremely bad installation condition.

## Photovoltaic bracket lower pressure plate
