

PIENAAR ENERGY (PTY) LTD

Photovoltaic energy storage equipment cost analysis

Overview

NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems. This work has grown to include cost models for solar-plus-storage systems. NLR's PV cost benchmarking work uses a bottom-up. Each year, the U. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U. These benchmarks help measure progress toward goals for reducing solar electricity costs. Figure 19 shows the resulting costs in nameplate and usable capacity (\$/kWh) for 600-kW Li- ion energy storage systems, which vary from \$481/kWh-usable (4-hour duration) to \$2,154/kWh-usable (0.
