

PIENAAR ENERGY (PTY) LTD

Photovoltaic panel construction contracting

Overview

We specialize in solar site preparation, foundation excavation, post-pounding, ballast block pouring, concrete foundation work, solar racking assembly, solar panel mounting, and more. We design, build, expand and maintain efficient, cost-effective solar energy facilities from the ground up, helping our clients meet growing needs for clean, sustainable power and ongoing energy conservation. Working with preferred engineering firms or through our own network of engineers, we are. At Mortenson, we partner with you from preconstruction to commissioning and beyond. With our unmatched technical expertise, 100% self-perform capabilities, transparent communication and zero injury culture, we ensure you have a positive and successful project experience. PCL Solar, powered by industry leading experts, has been trusted to build more than 9. Services include project acquisition and development, construction management, and engineer-procure-construct (EPC) support for the development, execution, and operations of high-quality PV solar projects.
