Overview

This guide compiles the top solar panel manufacturers, ranks the leaders by power shipments, and explains which company profiles are best suited for different project types. The 10 photovoltaic module producers leading global output face falling prices, fierce competition, and growing manufacturing overcapacity. During the conference, PVBL announced its annual ranking of the top 20 global photovoltaic. The world's top 10 solar photovoltaic (PV) module manufacturers shipped a record 500 gigawatts (GW) of modules in 2024, nearly doubling the previous year's volume, according to Wood Mackenzie's new Global Solar Module Manufacturer Rankings 2025 report. These 12 suppliers are known for their durability, warranty strength, and global reputation. So you can count on them for peace of mind before a high-value purchase. Whether you're a homeowner, business operator, or renewable energy investor, choosing the right photovoltaic panel manufacturer directly impacts system efficiency and ROI. This report, drawing on the latest developments in the 2025 market, analyzes the key characteristics of the top 10 global PV module manufacturers across four dimensions: technological capability, vertical integration, international presence, and performance in the European market.
