

PIENAAR ENERGY (PTY) LTD

**Photovoltaic panel operation
and maintenance technical
training content**

Overview

The program combines technical and skills training in areas such as safety protocols, electrical and electronics knowledge, system components and sizing, performance analysis, maintenance and troubleshooting techniques. This report is available at no cost from the National Renewable Energy Laboratory (NREL) at www.nrel.gov. National Renewable Energy Laboratory, Sandia National Laboratory, SunSpec Alliance, and the SunShot National Laboratory Multiyear Partnership (SuNLaMP) PV O&M Best Practices. SEI's PVOL095: Introduction to O&M for Large-Scale PV Systems delivers essential training for both aspiring technicians and growing businesses. This Guideline will establish a transparent. With funding from the U. For the first time ever, the industry has coalesced around a consensus document to. This high-quality, 3D-animated computer-based training program encompasses a wide range of essential topics and OEM-specific content for solar site operations and maintenance. Click on Provider link for class schedule, price & other details. Course Format Options: In-Person Length: 24 Hours A total of 30 Hours advanced CEUs are required for Recertification.
