

**PIENAAR ENERGY (PTY) LTD**

# **Photovoltaic panel relocation subsidy**

## Overview

---

The Residential Clean Energy Credit equals 30% of the costs of new, qualified clean energy property for your home installed anytime from 2022 through Decem. The federal programs below may provide financial assistance to lower energy costs and may be applied to solar. – The Energy Department has compiled a comprehensive. With the federal solar tax credit ending much sooner than expected — you now only have until Dec. 31, 2025, to install a system and get the 30% solar tax credit — it's definitely in your best interest to take advantage of all the solar incentives available to you. Programs like the federal solar tax credit, state-level solar panel rebates, and utility-based solar subsidies have made it easier for homeowners to go solar and save on energy. If you invest in renewable energy for your home such as solar, wind, geothermal, fuel cells or battery storage technology, you may qualify for an annual residential clean energy tax credit.
