

PIENAAR ENERGY (PTY) LTD

Photovoltaic panel suction cup hoisting

Overview

You can easily grip the solar panels with suction cups that have been designed for specifically handling this type of material. 30, 2023 -. Since 1964, Wood's Powr-Grip has provided innovative equipment which uses vacuum to lift, hold, and position nonporous materials. WPG equipment is frequently used for glass fabrication, window installation & glazing, sheet metal, stone slabs, insulated metal panels, and solar panels. A reliable manual solar panel lifting device reduces labor strain, enhances precision during. Faulty modules are rejected and placed onto a pallet. Using the AERO 135/12M-SK, several photovoltaic modules can be sucked in from above at the same time, allowing them to be removed from or inserted into cardboard boxes with.

Photovoltaic panel suction cup hoisting

Vacuum Tube Lifter JumboErgo Allows Horizontal and Vertical

The vacuum tube lifter JumboErgo with double suction cup allows for a correspondingly gentle lifting of the solar modules. The JumboErgo has a pneumatic swiveling unit which allows jolt-free swiveling by ...

Product Model
 HJ-ESS-215A(100KW/215KWh)
 HJ-ESS-115A(50KW 115KWh)

Dimensions
 1600*1280*2200mm
 1600*1200*2000mm

Rated Battery Capacity
 215KWH/115KWH

Battery Cooling Method
 Air Cooled/Liquid Cooled

Ergonomic helpers for the photovoltaic industry , AERO-LIFT

Many companies in the PV industry have already been able to make their work much more comfortable and ergonomic thanks to our vacuum lifting devices. We are constantly working on new concepts for ...
