

PIENAAR ENERGY (PTY) LTD

Photovoltaic panel water retaining plate

Application scenarios of energy storage battery products

Overview

Solar panel water drain clips are user-friendly, straightforward and effective accessories suitable for residential, commercial and industrial solar projects. They are designed to prevent water pooling on panel surfaces, thereby enhancing both the operational efficiency and lifespan. Quantity and Size: This set includes 10 water drain clips measuring 4.4 cm, specifically designed for solar panels with a 30mm frame thickness. Durable Material: Constructed from high-quality plastic and polymer material, these clips offer anti-aging properties and resistance to extreme. Water is retained within pockets on the upper sides of the plates while excess water flows through small holes and spills over the edges to be carried off the roof. This. 30mm 35mm 40mm Solar Panel Water Drainage Clips,PV Modules Cleaning Clips for Water Drain Photovoltaic Panel Water Drain Clips Features

- Auto Remove Stagnant Water
- Increase power generation to prove the lifespan of solar panels.
