

PIENAAR ENERGY (PTY) LTD

Photovoltaic panel with DC water pump manufacturer

Overview

Our solar water pump manufacturing integrates breakthrough MPPT controllers with permanent magnet DC motors to maximize energy efficiency from photovoltaic panels, delivering consistent water flow even during variable sunlight conditions. Our solar water pump manufacturer delivers eco-friendly pumping systems that eliminate fuel costs and reduce carbon footprint while providing reliable water supply for irrigation, livestock, and community needs. Photovoltaic water pump controller system: It. We pioneered China's first dual-shielded water-filled motors with thrust bearings, the first manufacturer to create hybrid brushless DC motors, and the first to introduce brushless DC solar water pumps with built-in controllers. Our water-filled motor ensures superior durability, outperforming. Solar pump system is a sustainable solution for water supply, particularly in off-grid locations. We also carry a complete line of accessories, hardware, and installation parts and kits.
