

**PIENAAR ENERGY (PTY) LTD**

# **Photovoltaic panels attached to the roof**

## Overview

---

Solar panel roof mounting is the process of securely attaching photovoltaic panels to your home's roof structure using specialized mounting systems. Professional Installation is Critical for Safety and Warranties: Solar panel mounting involves working at dangerous heights with structural modifications that can void warranties if done incorrectly. Professional installation typically includes 5-25 year warranties and ensures compliance with 2025. What happens if you need a new roof after the solar panels are installed?

We'll answer all those questions and more so you can decide if a rooftop solar system is right for you. All the details you need to know about mounting solar panels on your roof are included in this article. Join This Old House. Begin by consulting a structural engineer or a certified solar installer to evaluate your roof's condition and suitability for solar panels.
