

**PIENAAR ENERGY (PTY) LTD**

# **Photovoltaic poverty alleviation inverter supplier**

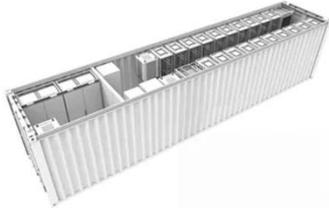

## Overview

---

At present, the main product range of INVTSolar includes grid-connected inverters (0.75-80kW), off-grid inverters (1-36kW), energy storage inverters (3-630kW), water pump inverters, and terminal options., System monitoring software, etc. Solis is one of the world's largest and most experienced manufacturers of solar inverters supplying products globally for multinational utility companies, commercial & industrial rooftop projects, and residential solar systems. PSMART is a new energy enterprise dedicated to the R&D and manufacturing of solar inverter and UPS, including off grid inverter, off grid solar system, MPPT solar charge controller, storage inverters and low frequency online UPS, power guard, and smart energy monitoring management solutions as. Photovoltaic poverty alleviation policy Development and Reform Energy [2016] No. 621 "Opinions on the Implementation of Photovoltaic Power Generation Poverty Alleviation Work" pointed out: The current work goal is to focus on the 35,000 registered poor villages in 471 counties in 16 provinces with. Photovoltaic poverty alleviation is not only a new approach to poverty alleviation, but also a new field to expand the photovoltaic market, which is conducive to increasing people's income and employment, further promoting the reform of lifestyle, and has obvious industrial driving and social.

## Photovoltaic poverty alleviation inverter supplier

### How do photovoltaic poverty alleviation projects relieve household

By the end of 2019, in China, the task of PPAP construction had been fully completed, with 26.36 million kWh of (PV) photovoltaic power plants having been built and 4.15 million households benefitting. This ...
