

PIENAAR ENERGY (PTY) LTD

Photovoltaic power station photovoltaic panel rental

Solar Panel

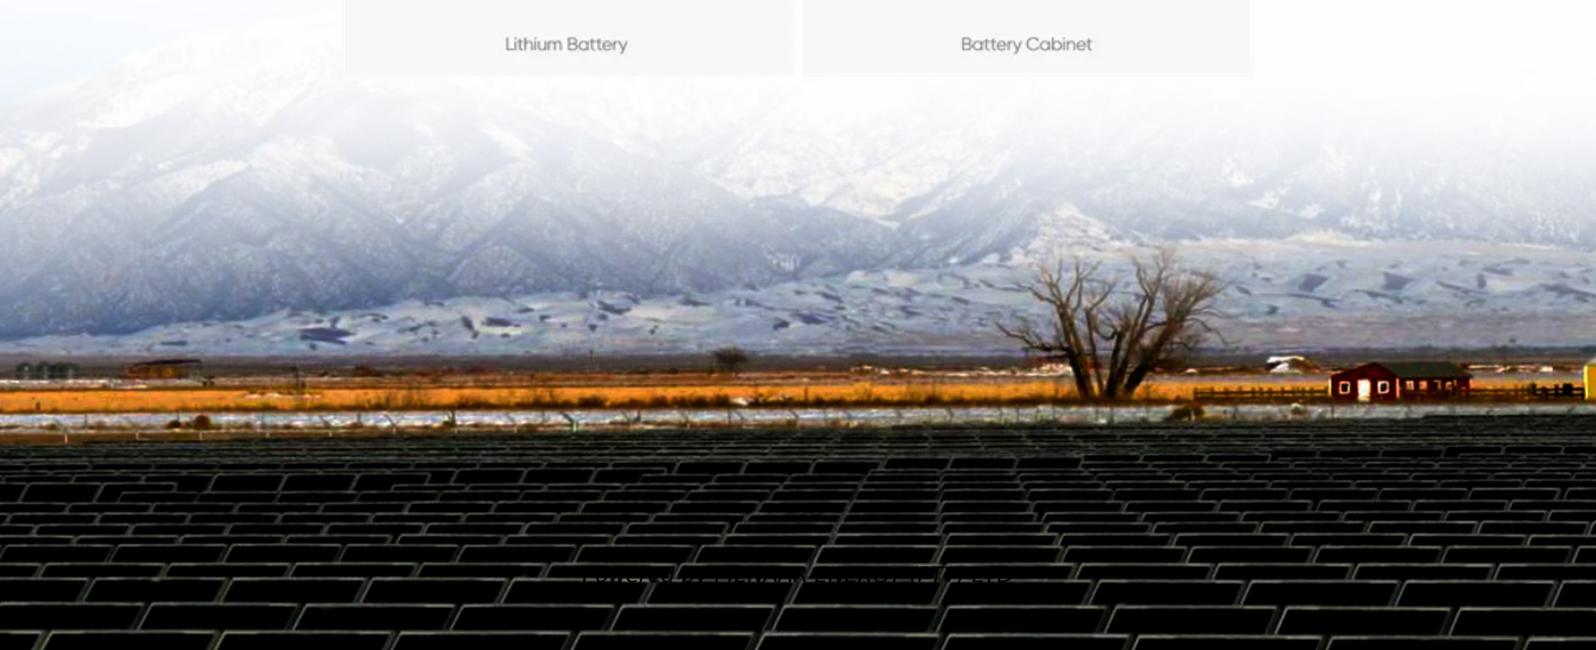

Hybrid Inverter

Lithium Battery

Battery Cabinet

Overview

From construction sites to remote locations and emergency situations, our solar power rentals provide clean, efficient, and hassle-free energy wherever you need it. Climate-proof power for your off-grid home, cabin or build. However, there is a flexible solution that works without any initial costs - by renting a solar system. With our energy-as-a-service model, ENVIRIA takes care of the financing, installation, and even the operation of the PV system on your commercial roof. For more information on how we provide assistance, from enhancing operation efficiency to ensuring the safety. A photovoltaic power station, often referred to as a solar farm or solar power plant, is a large-scale facility designed to generate electricity using solar panels. It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. This is a great solution for renters and folks who want to use backup power.
