

PIENAAR ENERGY (PTY) LTD

Photovoltaic support profile cutting hydraulic press

Overview

This advanced production line integrates decoiling, leveling, punching, roll forming, and cutting into one continuous process, ensuring precise dimensions and high efficiency. Equipped with PLC control and touchscreen operation, it allows operators to adjust profile sizes. This manufacturer and trader mainly exports to Panama, Poland, and Oman, and offers services such as quality control, full customization, design customization, and sample customization. They have product certification. Hydraulic cutting. Roll forming line for the production of "C" profiles for photovoltaic sector, in various dimensions. It is a motorized decoiler (or idle on request) with the capacity of 3 tons. Complete with hydraulic power pack and independent electric plant.

Photovoltaic support profile cutting hydraulic press

HOPEX photovoltaic bracket roll forming machine

The servo feeding system guarantees accurate length control, while hydraulic cutting ensures clean, burr-free edges. Suitable for galvanized steel, aluminum, and stainless steel, the machine delivers ...
