

PIENAAR ENERGY (PTY) LTD

**Plastic feet for photovoltaic
panel support**

Overview

Our precision-engineered support feet offer a non-penetrative solution, protecting roof surfaces from damage while providing a secure and level base for mounting frames, HVAC units, solar panels, and other rooftop installations.

Effortless Assembly: The solar panel support legs feature a simple structure and compact design, offering high mechanical strength and ease of connector assembly during outdoor installations, making the setup process a breeze.

Hassle-Free Installation: With a straightforward on-site installation. To verify or get additional information, please contact The Home Depot customer service.

VEVOR Solar Panel Mounting Brackets. 0-90° flexible adjustment maximizes sunlight exposure and energy efficiency. Not only do they hold the solar panel to the roof of your RV, camper van or off-road vehicle but they also must last the life of the panel.

EASY INSTALLATION: The simple on site installation process effectively improves the efficiency of on site.
