# Podgorica electric vehicle adoption

## Overview

---

Out of about 235,000 registered vehicles in Montenegro, last year, according to UNDP data, there were 126 electric cars, and Podgorica is recently the first city in the region to have a taxi service that provides citizen transport services with Tesla electric vehicles. According to the International Energy Agency, the top six countries with the highest share of EV sales are Norway (electric vehicles made up 92% of passenger vehicle sales in 2024), Sweden (58%), Denmark (56%), Finland (50%), and the Netherlands and China (tied at 48%). Notably, this makes China a. Across all vehicle modes, the deployment of EVs replaces the use of more than 5 million barrels of oil per day globally in 2030, an important energy security consideration. Half of these savings are the result of EV adoption in China. Consequently, attracting technologies of the latest trends, but also human resources of all necessary capacities for the planned ambitious growth of the Capital City of Podgorica, will. The automotive industry is undergoing a profound transformation as electric vehicles (EVs) gain traction worldwide. This shift is driven by a combination of factors, including environmental concerns, technological advancements, and supportive government policies. CSM International, a leader in. IT DOES NOT PROVIDE SPECIAL TREATMENT FOR E-MOBILITY, EXCEPT INDIRECTLY THROUGH PRINCIPLES AND OBJECTIVES OF ENVIRONMENTAL PROTECTION, AND THROUGH THE POSSIBILITY OF FINANCING BY USING THE FUNDS FROM THE ECO FUND.
