Price of imported solar panels in Brazil

Overview

As of Q2 2024, solar panel prices in Brazil average R\$1.98/Watt for 500+ unit purchases - 15% cheaper than Germany's rates but 22% higher than Chinese benchmarks. Despite global overcapacity, several factors may contribute to a slight increase in solar panel prices in Brazil, with shipping costs and quotas for fiscal exemptions on imported PV modules playing a key role. 1 GW of PV modules between January and. Data is part of a study released by Greener during a live broadcast held this Tuesday (28) Brazil imported around 20,19 GW of photovoltaic modules between January and November 2024, according to data released by greener, in a live broadcast held this Tuesday (28). Join the Community Canal Solar on. Brazil's solar energy market is undergoing an extraordinary expansion. With over 35 GW of installed capacity and an anticipated R\$170 billion in new investments by 2026, the country presents a remarkable opportunity for entrepreneurs looking to enter the solar manufacturing sector. China is the main supplier of these equipment, and despite the recent increase in import taxes, Brazil continues to import. Recently, Brazil's Secretariat of Foreign Trade under the Ministry of Development, Industry, Trade, and Services announced a major policy decision aimed at promoting the domestic solar PV industry by adjusting import tariffs.
