

**PIENAAR ENERGY (PTY) LTD**

# **Rack-mounted energy storage series price**

## Overview

---

These complete rack mounted systems vary according to the Inverter and amount of storage needed. Dyness HV4 rack system is also designed for indoor use high-voltage systems, with a larger capacity of each module to fit medium C&I scenarios, to increase solar self-consumption, provide backup power or peak-shavings, etc. It is composed of modular lithium battery units, protection circuits, monitoring units and control systems. It has the characteristics of high energy density, high efficiency, long life. Our Rack type Energy Storage system is designed to offer a reliable, intelligent, and secure solution for diverse energy storage needs, promising efficiency and safety in every application. Compact yet robust, it offers 5.
