## Overview

---

Farmers can benefit from solar energy in several ways—by leasing farmland for solar; installing a solar system on a house, barn, or other building; or through agrivoltaics. The program provides guaranteed loan financing and grant funding to agricultural producers and rural small businesses for renewable energy systems or to make energy efficiency improvements. This system generates an impressive 344,842 kWh in its first year and is projected to produce over 11,725,000 kWh over its lifetime. Did you know that the U.S. Department of Agriculture has a free program designed to make the application process easier by offering you step-by-step guidance over 10 weeks to complete and submit your USDA REAP grant! Top 6 questions answered about REAP. are stepping into the spotlight in 2025. From farms to fairgrounds, small towns to.
