

## PIENAAR ENERGY (PTY) LTD

# Russia thermal energy storage

## Overview

---

The thermal energy storage market in Russia is expected to reach a projected revenue of US\$ 332. A compound annual growth rate of 11.5% during 2024–2030, to reach USD 58. The key factors driving the growth of this market are the increasing population and the. 10 comprehensive market analysis studies and industry reports on the Energy Storage Technology sector, offering an industry overview with historical data since 2019 and forecasts up to 2030. The market is characterized by a mix of technologies including lithium-ion batteries, pumped hydro storage, and. Should government stimulate national energy storage systems market development and what is the most efficient way to do it?

the volume of global energy storage market is estimated around uSD 100 billion in 2019, with 89 % share of electrochemical storage systems.
