

## PIENAAR ENERGY (PTY) LTD

# Rwanda battery energy storage

## Overview

---

East Africa's first large-scale battery energy storage system (BESS) in Rwanda is reshaping how the continent manages renewable energy. With 50 MW/100 MWh capacity, this \$65 million project tackles solar power intermittency while enhancing grid reliability for 500,000+ households. 5 MW solar capacity with lithium-ion battery storage. Why Rwanda is Emerging as an Energy Storage Hub Rwanda's commitment to renewable energy has positioned it as a leader in Africa's clean energy. Rwanda's electricity demand is projected to triple by 2030 [1], while the country aims to achieve 60% renewable energy penetration within the same timeframe. Discover our research projects that help accelerate the energy transition and aim towards a.
