

PIENAAR ENERGY (PTY) LTD

Scalable Procurement Contracts for Foldable Containers

LIQUID COOLING ENERGY STORAGE SYSTEM

EMS real-time monitoring

No container design
flexible site layout

Cycle Life
≥8000

Nominal Energy
200kwh

IP Grade
IP55

Overview

COLLAPSECON is the next evolution of shipping containers – a fully automated collapsible container that will improve operational efficiencies, deliver economic savings and reduce environmental impact across the supply chain, all without requiring a fundamental change to the industry. COLLAPSECON is the next evolution of shipping containers – a fully automated collapsible container that will improve operational efficiencies, deliver economic savings and reduce environmental impact across the supply chain, all without requiring a fundamental change to the industry. Effective contract management addresses all aspects of the contracting process, beginning with the development of the contract terms, negotiation to secure agreement, operationalizing the contract through technology, and ongoing protection of category terms and conditions with suppliers. On its maiden voyage, it carried 752. The U. foldable and collapsible container market size was estimated at USD 422. Rapid growth in online retail and a need to cut storage and transport costs have significantly. Previously foldable containers either required several workers, special tools, expensive machinery, dedicated location or any combination thereof. This creates additional logistical steps, severely limiting the widespread use of such containers. It's patented. The world's first 5-in-1 40' high cube shipping container that will revolutionize the intermodal shipping industry by providing significant cost benefits, improving empty container repositioning efficiencies, and lowering harmful CO2 emissions.
