

PIENAAR ENERGY (PTY) LTD

Server Rack 2MWh Selection Guide

Overview

Store your server or networking equipment in these server racks and cabinets in free-standing and wall-mount options and open and closed designs. Server racks can be a specialized computer case, wall-mount rack, standing frame, or server cabinet. Manufactured 100% in the USA, this superior quality Rackmount enclosure comes standard with a fully perforated (63% open) front and rear door for maximum airflow. Can be customized with a variety of door handles such as a card reader, remote monitor or combination lock. We offer three different. Server racks are open frames or cabinets designed for mounting, organizing and securing EIA-standard 19-inch width rack-mount IT and A/V equipment such as servers, routers, hubs, switches and audio/video components, regardless of the manufacturer. They also provide cable management and enable. Selecting a server rack frame could be the most important part of the designing phase. This rack type features two vertical upright support beams.
