How to Design a Custom Sheet Metal Cabinet

Select The Right Metal Type and Sheet Metal Thickness Identify The Correct Bending Method and Bend Radius Choose An Appropriate Welding Method Get Started on Your Custom Sheet Metal Cabinet Solution Today The first step in designing a custom sheet metal cabinet or enclosure is choosing the type and thickness of sheet metal that will be used for its construction. There are numerous materials options available, each of which exhibits unique characteristics that make it suitable for particular applications. For example: 1. Aluminum. This material is lig See more on hsmfg
