

**PIENAAR ENERGY (PTY) LTD**

# **Shopping mall uses Belgian folding containers for fast charging**

## Overview

---

This model offers a 30 kW DC fast charging system, compatible with CCS2 and CHAdeMO connectors. Fast charging offers great benefits to shopping centers. In about 90 minutes, users who park their vehicles in our shopping center will be able to charge up. Shopping malls, with their high foot traffic and extended dwell times, are uniquely positioned to become leaders in EV infrastructure. Our team dived again into our database to look at ultra fast charging in Belgium. At Gireve, we are at the heart of the EV charging. The widespread adoption of electric vehicles has intensified the demand for effective charging infrastructure, particularly in urban shopping malls. Specifically, our Powerflood model. Implementation: Partnerships: Westfield partnered with ChargePoint to install.
