

**PIENAAR ENERGY (PTY) LTD**

# **Solar City Solar Outdoor Cabinet Hybrid Type for Subway Stations**

## Overview

---

The Hybrid Solar Power System for Outdoor Cabinets combines solar photovoltaic panels with battery energy storage and optional backup power sources to provide reliable, continuous power for remote outdoor equipment enclosures. Designed to withstand. Its primary function is to seamlessly combine sources like solar panels, wind turbines, and grid power while managing energy storage and distribution. This system plays a critical role in supporting applications in remote areas where traditional power grids are unavailable or unreliable. Sustainable, high-efficiency energy storage solutions. The hybrid solar system is designed to be compatible with a 19-inch rack and is 9U in height. Built in a rugged, insulated NEMA 3X enclosure and skid-mounted for easy siting, the MOBICELL-350 integrates solar panels mounted on the outside walls of the cabinet, a 20 kWh AGM battery bank, and a 350W. ZANO Smart City is the next generation of street furniture. For your convenience each product can be equipped with USB A ports with quick charge, wireless chargers, free internet hotspot, telemetry.
