

PIENAAR ENERGY (PTY) LTD

Solar Home Power Generation in Europe

Overview

This shift comes as solar generation reached a record level in Europe in 2025, according to the report, producing more than 340 TWh, 6%, its highest level on record. From 17-18 February 2026, the SUPERNOVA project will organise three sessions at the Solar Quality Summit Europe 2026 conference in Barcelona. SolarPower Europe is the award-winning link between policymakers and the solar PV value chain. Solar is. The EU's electricity transition continued at pace in 2024, as solar overtook coal for the first time and gas declined for the fifth year in a row. 3 terawatt-hours (TWh) of energy. EU solar power output grew 21.1% of total generation - a trend mostly driven by new capacity additions.

Solar Home Power Generation in Europe

Solar breaks European power generation record

This March marked the third month in a row that Europe broke a historic power generation record. According to Eurelectric, solar now accounts for over 10% of the continent's electricity mix.
