Available at a lower price. Solar panels are an excellent investment in sustainable energy, but they can inadvertently create a cozy habitat for birds, squirrels, and other small creatures. While it's charming to think of your roof as a wildlife sanctuary, these uninvited guests can cause significant damage to your solar. The Solar Mesh Guard Kit effectively prevents pest birds and rodents from nesting under solar panels, protecting the roof and electrical wiring from damage. This mesh is typically made from durable materials that.
