

**PIENAAR ENERGY (PTY) LTD**

# **Solar-Powered Container Hybrid for Port Use**

## Overview

---

Dutch solar innovator Wattlab and German inland shipping giant HGK Shipping have teamed up to launch the world's first hybrid solar-powered inland vessel as part of an ambitious initiative to decarbonize inland waterway transport. As the global shipping industry faces mounting pressure to cut emissions and. Hybrid solar container power systems are modular and containerized energy systems that combine solar photovoltaics, battery energy storage, and other power sources, such as diesel generators or grid power, in a single, transportable package. These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client. Meet MV Vertom Tula, a brand-new diesel-electric multi-purpose cargo ship that instantly catches the eye with its massive solar power system.
