

**PIENAAR ENERGY (PTY) LTD**

# **Solar container energy storage system product configuration**

## Overview

---

A container energy storage system is a fully integrated battery storage solution packaged within a standard 20-ft or 40-ft container. It includes the battery modules, BMS, PCS, EMS, fire protection system, thermal management, cabling, and auxiliary components within a single. A mobile solar container is a factory-built, transportable unit that integrates solar panels, battery storage, and power controls—providing plug-and-play, rapid-deploy clean electricity for remote sites, events, and emergency response. These turnkey solutions integrate solar panels, inverters, batteries, charge controllers, and monitoring systems into a single transportable unit that. rage applications in commercial and industrial environments. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar. In today's rapidly evolving energy landscape, energy storage container design and configuration has become a cornerstone for industries ranging from renewable energy integration to industrial power management. These modular systems act like "power banks for the grid," storing excess electricity and.

## Solar container energy storage system product configuration

 **TAX FREE**    

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

## Eaton xStorage Container Containerized energy storage system

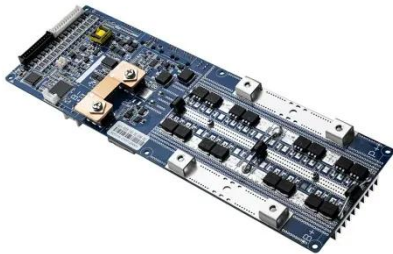

Containerized energy storage system All-in-one container range applications in commercial and industrial environments. The containerized configuration is a single container with a power conversion system, ...
