

**PIENAAR ENERGY (PTY) LTD**

# **Solar container lithium battery pack usage instructions**

## Overview

---

In this video, I'll show you how to properly connect, balance, and protect LiFePO4 cells to create a long-lasting, high-performance battery perfect for solar setups, inverters, RVs, and DIY power walls. 0 This manual introduces 24/48VDC series energy storage battery, Please read this manual before you to install the battery and follow the instruction carefully during the installation.

b). This manual describes the introduction, installation, operation and emergency situations of the battery bank. Keep this manual for future reference. The features and functionalities are largely the same, the main difference is the output voltage and the capacity. Also the Energy Pak 12 comes with a multi-function LED display, whereas the Energy Pak 3 and Energy Pak 6 come with a voltage. This guide will walk you through everything you need to know, from the core components to safe installation and troubleshooting. What's Inside Your LiTime LiFePO4 System?

1. Failure to follow any of the instructions or warnings in this document can result in electrical shock, serious injury be recharged within 12 hours ery terminals must be disconnected before maintena battery, include any internal or external.
