

PIENAAR ENERGY (PTY) LTD

Solar container system m hours

Overview

Transportable via standard shipping container, the system achieves full operational capability within 4-6 hours of arrival. Providing 24/7 clean energy with scalable solar capacity of 30-200kW and battery capacity of 50-500KWh. Built for longevity, the SolaraBox solar container is built to withstand harsh. 360 feet of solar panels can be rolled out in a matter of hours. Maximum solar yield power generated annually with 400 kWh per day as average energy output. Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations.

Solar container system m hours

Mobile solar array range

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.
