

**PIENAAR ENERGY (PTY) LTD**

# **Solar integrated machine on the yard tiles**

## Overview

---

A roof-integrated solar system replaces the external building envelope, which in most cases consists of tiles or other roofing materials. To maintain the benefits of a tiled roof, it is optimal to use frameless solar modules. Arena is an innovative solar panel roof tile designed to function as technical flooring for terraces, rooftops and other outdoor spaces. This solar energy generation system seamlessly integrates into areas that are traditionally unused for energy production, transforming surfaces into active. Solar tiles not only offer a highly efficient method of generating solar energy but also impress with their aesthetic integration into architecture. But how exactly are these solar tiles constructed, and what makes them so special?

In this blog post, you'll learn all about the structure and. These innovative tiles seamlessly integrate solar technology into your roof, providing clean and renewable energy while improving your home's curb appeal. Conventional methods rely on external mounting frames, manual drilling, and separate panel placement. Unlike traditional solar panels that are mounted on top of existing roofs, solar tiles are integrated directly.
