

**PIENAAR ENERGY (PTY) LTD**

# **Solar light production for home use**

## Overview

---

Creating a solar light for home use involves several key steps and components: 1. Identify materials and tools needed for assembly, 2. Imagine powering your garden lights, security systems, or even indoor lamps. Today, making your solar light system at home is as simple as ever. Since 2008, hundreds of thousands of solar panels have been installed across the country as more and more Americans choose solar energy for their daily lives. There's something incredibly satisfying about creating your own eco-friendly lighting to brighten up your backyard, patio, or even a cozy indoor corner.
