

PIENAAR ENERGY (PTY) LTD

Solar photovoltaic power generation flat roof house

Overview

Yes, you can successfully install solar panels on the flat roof of your home or business. However, there are some challenges to be aware of. Flat roofs have a minimal slope allowance that will accommodate solar PV panel systems. But also, the world isn't perfect. It'll likely still exceed. Optimal Performance Through Flexibility: Flat roofs offer superior energy production potential compared to sloped roofs because panels can be positioned at the ideal tilt angle (15-40 degrees) and orientation regardless of building direction, often resulting in 10-15% higher energy yields.
