

**PIENAAR ENERGY (PTY) LTD**

**Solar power generation is so  
slow to be promoted**

## Overview

---

Why is it difficult to popularize solar energy?

The challenges associated with the promotion and widespread adoption of solar energy stem from a variety of multifaceted issues. Infrastructure limitations, 3. Technological dependency, 4. Public perception. The U. solar industry is facing a period of deceleration, according to the latest Solar Market Insight Report Q3 2025, published by the Solar Energy Industries Association in conjunction with Wood Mackenzie. The. In the third quarter of 2025, solar projects representing about 20% of planned capacity reported a delay, a decrease from 25% in the same period in 2024, based on data compiled from multiple Preliminary Monthly Electric Generator Inventory reports. Solar power is the fastest-growing source of new. Solar energy offers numerous advantages, including job creation, reduced energy costs, and improved public health. electricity, an annual update on sustainable energy finds. In this article, we will examine into the reasons why.
