

**PIENAAR ENERGY (PTY) LTD**

# **Solar power generation projects and value**

## Overview

---

What follows are the top 10 solar power plants that are actually operational and verifiably producing power as of 2025. No speculative or half-built megaprojects and planned expansions. The focus is on ground-mounted systems larger than 5M AC, including photovoltaic (PV) standalone and PV+battery hybrid projects (smaller projects are covered in Berkeley Lab's. and 602 GW dc of PV were added globally, bringing the cumulative installed capacity to 2. 2 TW dc • China continued to dominate the global market, representing ~60% of 2024 installs, up 52% y/y. • The IEA reported Pakistan's rapid rise to fourth place in annual. Electricity generation by the U. electric power sector totaled about 4,260 billion kilowatthours (BkWh) in 2025. In our latest Short-Term Energy Outlook (STEO), we expect U. Solar accounted for 54% of all new. In this week's list, we take a deep dive into the uses and application of solar power, including agriculture, aviation and retail.

## Solar power generation projects and value

---

### Solar power generation drives electricity generation growth over the

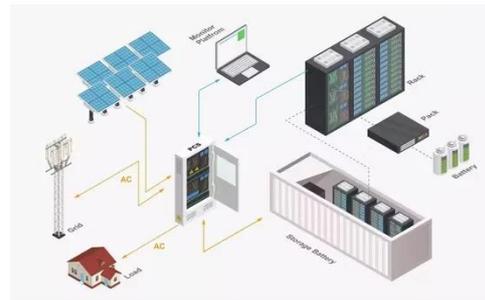

In our STEO forecast, utility-scale solar is the fastest-growing source of electricity generation in the United States, increasing from 290 BkWh in 2025 to 424 BkWh by 2027. Almost 70 ...
